Share the recipient's details

You will need to fill in the recipient's details including their bank details or the recipient's mobile number if they prefer receiving the funds by mobile wallet.

4

Verify your ID.

In order to keep your money safe, we require your photo ID for some countries or for large transactions.

5

Now pay for your transfer.

Send the payment either by bank transfer or debit or credit card.

6

That is all!

Now just sit back and relax. We will take charge and deliver the funds to the recipient. You can track in the meantime the transaction. We will notify both of you when the funds have arrived and been collected.
